

We are the proud new owners of two beautiful baby Shih-Tzu's. We picked up our new family from Elonda Womack on Sunday, July 21st. Molly and Bogie are eleven weeks old. They have obviously been nurtured with love and careful attention since birth.

I found Elonda through her web-site. I was totally grief stricken when I first talked with her because I had recently lost our beloved chocolate Shih Tzu after a long illness. I was very impressed with her knowledge of the breed, her willingness to answer all my questions, her empathy with my situation and her obvious love for her Shih Tzu's. I indicated I would be in touch in about six months.

I talked to other breeders by phone and internet and determined Elonda was the breeder I preferred to work with. After making my decision I contacted Elonda and found that she had a new litter of pups that included a chocolate girl. When it was safe for the puppies, we schedule a visit. I found her home clean and a perfect spot for all of her adults dogs and their adorable puppies. Elonda has a beautiful yard and the dogs have a fenced in area to play in. She has a wide variety of colors in her adult population. The dogs have very sweet, calm dispositions. They are affectionate and loving. I know they get a tremendous amount of love and the best of care.

We decided to take two of the litter so they could keep each other company. We came away from Elonda's with literature, food, total instruction, chewies, toys and even clothes. I stay in contact so she can rest assured that we love her babies as much as she did.

If you are considering a new puppy, I highly recommend Elonda as one of the best breeders I have ever worked with. She has provided us with two little bundles of affectionate joy. We will value their love and friendship for many years to come.
